How Old Age Comes To Those Who Invite It

keepings piece of machinery in

Is the body as important as an automobile engine or a ology, but it works like health. Is it as reasonable to talk

about the best ways of sus-

taining the body as it is to talk

repair and running amouthly.

of proper care for the engine or the furnace?

Well, then-The body is strengthened, warmed, sustained-kept young in a very practical

and scientific way. Some Simple Facts

Food is heat and power and renewal for the body. After all, there's nothing

what food does in serving human need. Nothing mysterious, but

much that is interesting and

Some foods are particularly

good for the body. GRAPE-NUTS is such a

Grape-Nuts is made from whole wheat and malted barley flour - product of the two grains which are richest in food elements for human need. Under the outer, or bran coating of the grain,

are plain rules, nature has placed phosphates ing develop fermentation and 1 understood, about and lime which go to the making of bone, and the red blood corpuscles.

This may sound like physi-

Hunger Not Cheated

All the richness of the kernel, together with essential mineral elements, are retained in the making of Grape-Nuts. Often, in the manufacture of foods, some of the most vital of nature's provisions are thrown away.

The long baking process (Grape-Nuts is the result of 20 hours continuous baking) partially pre-digests the food substances, develops the starches into dextrin and maltose giving to Grape-Nuts its own natural sweetnessand produces a food which, mysterious or magical about when served with milk or cream, has been found by chemists to be almost perfectly balanced in qualities

The Enemies Within

Now, old age begins in the

larger intestine. This is what the scientists have found who know the human body as the mechanical expert knows his auto-

Noneed to go into the particulars-it's enough to say that certain effects produced by food which is alow in digest-

other conditions which cause the bodily machine to slow down and wear out sooner than necessary.

-"There's a Reason"

Grepe-Nuts digests quick-

ly and wholesomely. Much of this is due to the fact that the long baking has partly pre-digested the nutriment; partly to the fact that there is contained in Grape-Nuts the essential "roughness" to stimulate the action

of the intestines. Health's Splendid Champion

Grape-Nuts is a delightful food, for it is uniquely rich and sweet in flavor, and always crisp. It is unusually nutritious, for it has all the body-building elements of the most perfect food grains. It is a convenient and economical food, for it is ready to eat from the package, keeps in any climate, and is appetizing to the last bit.

It builds strength and vigor without taxing the digestion or leaving, within the body, elements whose familiar harm is really the beginning of "old age,"

Grape-Nuts has been a favorite food, around the world, for nearly a quarter of a century-

And there is a reason!

to soak before breakfast

and rinse them out when the dishes are done HIS is what one experienced house- the clothes to soak the night before and wife writes about doing her regular weekly wash with the marvelous new soap product, Rinso. Until recently she always made an all-day job of washing, rubbing her clothes for hours to get the dirt out. Now that she soaks them clean

she says Rinso actually saves about five hours of work each washday. Hundreds of thousands of women are finding that Rinso takes all the hardest

work out of washday. Some of them put Bros. Co., Cambridge, Mass. Dissolve

Pour into tub

to rub any but the most soiled spots and those only lightly. Rinso loosens every particle of dirt from even the heaviest pieces without injuring a single fabric. Don't rub your youth away. Get a package of Rinso today from your grocer or any department store. Lever

rinse them out in the morning. Others

find it easier to soak for a few hours during

the day. All of them say they don't have

Then let your clothes soakand rinse without any hard rubbing-sock open
